33		Dozier New York Special Fixed Blade Tactical Knife with Sheath	Dozier New York Special Fixed Blade Tactical Knife. Inspired by a 1970s Loveless design. The New York Special is made of D2 steel at a hardness of 60-61 Rc, with handle scales of black Micarta® and comes complete with a unique carrying harness invented by Bob Dozier. This carrying strap fastens to your belt just behind your right hip, crosses your back to go over your left shoulder and fastens to your belt about four inches to the left of your buckle. The special Kydex® sheath then is adjusted to the correct level and the knife is instantly available to your hand. This arrangement does not cut off your circulation or constrict the movement of your arms as do other harnesses. 7-3/8" total length, 3-3/8" clip point blade made of D2 steel. This knife comes with a full tang and a finger groove. Weighs 4.1 oz. including Kydex® sheath and shoulder strap. Condition: Excellent. Evidence of light carry, no evidence of sharpening or use. Sheath in Very Good Condition.

41		Al-Mar Knives Warrior Fixed Blade Fighting Knife New In Box	<p>Al-Mar Knives Warrior Fixed Blade Fighter New In Box. 1980s Vintage The Warrior knife is a large curved blade fighting knife with a serrated back edge that was first made by Al Mar Knives and Round Eye Knife and Tool (REKAT). Part of the knife's design is credited to martial arts instructor Michael Echanis.</p> <p>The Warrior knife was designed by custom knife maker, Vietnam combat veteran, and close combat instructor Bob Taylor and Hwarang-do expert Randy Wanner. The blade is distinctive in that the entire rear portion of the blade has a serrated edge, that was added at the suggestion of Wanner's Hwarang-do student Michael D. Echanis and is the reason why the knife has the informal name "Echanis' Warrior". Al Mar was an edged-weapons specialist in the U.S. Army Special Forces, a 5th degree black belt in Judo when he started Al Mar Knives in 1978 and began work on the famous and highly sought after "Warrior" knife. In his book, Battle Blades, Greg Walker[3] refers to the Al Mar Warrior as, "perhaps the ultimate in battle-blade design.</p> <p>In addition to the rear serrations used for trapping an opponents' attacking limb, the knife is noted for having an extremely ergonomic handle for use in both the forward and reverse grip. The handle was designed by making a complex study of the human hand through a COBOL computer program and this design has gone on to influence other fighting knives such as Emerson Knives' CQC-8 model. Blade length: 7.25", Blade Thickness: 0.25", Handle Length: 6", Handle Thickness: 1", Overall Length: 13.25", Blade material: Stainless Steel, Handle material: Black Rubber &amp; Stainless Steel, Sheath: Stitched Leather. Condition: New in Original Box, Some Papers.</p>

Condition: Very Good To Excellent Pre-Owned/used. Evidence of light carry, no evidence of sharpening or use. With original tin and outer box, box with shelf wear. NO adjustment wrench. Note: Some knives in this collection were re-united with their boxes after being removed from drawers or display, this is one of those knives.
185		Vintage Spyderco Spot FB08BMS Fixed Blade Neck Knife with Box	Spyderco Spot FB08BMS Fixed Blade Neck Knife From Spyderco: The FB08BM S.P.O.T. is suitable in application for runner, kayakers/canoists, truck-drivers and anywhere you might need a cutting tool but cannot access one in your pocket. Unique to the model is the index finger hole, a Perrin feature. Placing the index finger through the hole and gripping the angled handle situates the thumb atop the blade's spine for precise cutting control. Curved into a reverse S-shape, the blade slices like a demon and is ground to an incisor-like tip for craft projects and other meticulous cutting jobs. Graduating-sized holes are dremmed out of the blade lessening overall weight and adding to its 'spotty' appearance. The FB08BM S.P.O.T. is made of VG-10 stainless steel overlaid with Micarta edging along the handle's rim for added grip. Since it's made of a solid piece of stainless steel, the S.P.O.T. has no moving parts to catch, break, or wear-out over time. Combined with a lightweight Boltaron neck sheath, the sheath/knife combination carry discreetly and confidently flat under clothing or workout gear hanging by a 30-inch ball chain covered in 20 lb. breakaway black paracord. Condition: Excellent with original box & sheath, box with shelf wear. Note: Some knives in this collection were re-united with their boxes after being removed from drawers or display, this is one of those knives.
186		Vintage Spyderco C106SYL Tasman Salt with Box	Vintage Spyderco C106SYL Tasman Salt features a 2.9" serrated hawkbill blade made of H1 steel. The blade of this Spyderco Knife has a Spyderco hole for ambidextrous one hand opening. The yellow fiberglass reinforced nylon handle, 4" closed, has a Volcano Grip texture, Boye dent lockback, and a lanyard hole. A side to side reversible metal pocket clip is mounted at the butt end of this Spyderco knife. Knife has an overall length of 6.9" and weighs 2 ounces. The Spyderco Tasman Salt Knife has a blade made out of a PH (precipitation hardened) steel that doesn't rust. H1 steel is naturally hard, and it will hold a sharpened cutting edge equivalent to many carbon steels. H1 has 1 percent nitrogen instead of carbon, so it cannot rust. Condition: Excellent pre-owned/used. Evidence of light carry, no evidence of sharpening or use, with kydex neck sheath, and original box. Box with shelf wear. NO PAPERS. Note: Some knives in this collection were re-united with their boxes after being removed from drawers or display, this is one of those knives.
187		Rare Vintage Spyderco Clipit Endura RED Scales	Rare Vintage Spyderco Clipit Endura RED Scales, serrated edge. In the 1990s, Spyderco revolutionized the knife industry by introducing the Endura. First of its kind on the market, this folder opened up the knife market to lightweight performance, one-hand open pocketknives that just about everyone could afford. Refinement has been so ongoing and continual Spyderco tagged the updating/upgrading process with the term CQI- Constant Quality Improvement. The fiberglass reinforced nylon (FRN) molded handle is bi-directional pattern on the left side of the handle to improve the grip. This early production run, has the "U.S. and Foreign Patents" molded into the clip. Blade Length: 3.75" Cutting Edge: 3.4.0" Overall Length Open: 8.62" Closed Length: About 5" Blade Thickness: 0.125" Condition: Good pre-owned/used. Wear appropriate for age, marks to scales from handling and carry. No evidence of sharpening. NO BOX OR PAPERS.
188		Microtech Assailant Wallet Card Knife Circa 2014	Microtech Assailant Wallet Card Knife Microtech's Assailant is a titanium credit card knife that provides outstanding cutting potential and convenience. This one is grey anodized with the Marfione Dagger and Microtech Claw logo on the face along with the date of production. The cutting edges are carbided for edge retention. Comes in a black nylon Microtech bi-fold wallet that features the Marfione Dagger titanium patch and fleece-lined interior. Length:3.375", Width:2.125", Thickness:0.06", Material:Titanium, Finish: Gray, Weight:0.85 oz. Condition: Excellent As New , NO BOX or PAPERS.
189		Vintage Crawford Design Benchmade Leopard Folder	Vintage Crawford Design Benchmade Leopard Folder, very early (Bali-Song Logo) original Benchmade Crawford folder knife. Knife has black anodized aluminum handle with ATS-34 plain blade. Measures 4.75" closed. Condition: Good Used/pre-owned condition. Evidence of carry, sharpening, wear to high surfaces. Dust from pocket and drawer. No BOX or PAPERS.

190		<p>Novel CRKT ROLLOCK Pocket Knife with Kershaw Pouch</p>	<p>Novel CRKT ROLLOCK Pocket Knife. The Rollock is a very slick knife from CRKT. To open the knife, you simply press down on the spine of the blade to raise the point. Then you push it forward until the lock engages the blade in place. To close the knife, simply press on the upside down lock back, grab the blade and slide it back, then pull against the spring until the blade snaps into place. It sounds confusing, but with a bit of practice, you'll grow to love this neat mechanism. This model has a black translucent composite handle and plain blade. Includes pocket clip. Overall Length: 5.75", Blade Length: 2.25", Blade Thickness: 0.09", Blade Material: AUS-6, Blade Style: Drop Point, Blade Grind: Flat, Finish: Polish, Edge Type: Plain, Handle Length: 3.50" Condition: Good Used/Pre-owned condition. No evidence of sharpening, evidence of light carry. Stress cracks to scales where pins attach. See Photos. Pouch in good used condition.</p>
191		<p>Lot of 2 Vintage Spyderco Police Model Stainless Scale Lockback Knives</p>	<p>Lot of 2 Spyderco Police Model Stainless Scale Lockback Knives From Catalog: Spyderco's Police Model was developed in the early 1980's in response to requests from law enforcement officers who wanted a slim, easy-to-carry folder capable of serious cutting performance. The result was the Police Model—one of the most enduring and iconic folding knives ever produced. The classic version of the Police Model features a satin-finished stainless steel handle with chamfered edges for maximum comfort during use. This handle construction provides substantial heft and a solid foundation for the knife's sturdy back lock mechanism, which features a Boye Dent to prevent unintentional lock release during use. Its blade is hollow ground from VG-10 stainless steel blade has a dramatic swedge (unsharpened bevel) for acute point geometry. Available with a PlainEdge™, SpyderEdge™, or CombinationEdge™, the Police Model's blade also includes our Trademark Round Hole™ for swift, reliable, one-handed opening. Condition: Very Good Used/Pre-owned condition, evidence of carry, no evidence of sharpening or abuse. NO BOXES or PAPERS.</p>
192		<p>Vintage Spyderco Police Model Stainless Scale Lockback Folder</p>	<p>Vintage Spyderco Police Model Stainless Scale Lockback From Catalog: Spyderco's Police Model was developed in the early 1980's in response to requests from law enforcement officers who wanted a slim, easy-to-carry folder capable of serious cutting performance. 193		<p>Spyderco SP36GP Military Model Folder</p>	<p>Spyderco SP36GP Military Model The 'Millie' has a modified clip-point blade laser cut with a 14 mm Spyderco Round Hole for quick deployment and for use with gloves. Texturing above the hole hold the thumb in contact with the blade's spine during cutting for confident control over the sharpened edge. The handle scales are G-10 with the lock's liner nested (inlaid) directly into the scale, pumping up lock strength without the addition of bulky liners. Spacers between the scales create a gap running the handle's full length exposing the inside workings for inspection and cleaning. The handle flares slightly at the front end creating a finger choil and at the butt end, which keeps the knife from slipping forward or backward in the hand while sawing or making tough or aggressive cuts. A contoured metal clip is set for right-hand tip-down carry. Blade Length: 4" (102 mm), Cutting Edge: 3-11/16" (94 mm), Blade Thickness: 5/32" (4 mm), Overall Length: 9-1/2" (241 mm), Closed Length: 5-1/2" (140 mm), Hole Diameter: 9/16" (14 mm), Blade Steel: CPM-S30V Stainless Steel, Weight: 4.2 oz. (120 g), Handle Material: G10 Condition: Excellent Pre-owned/used condition. Evidence of light carry, no evidence of sharpening or use. NO BOX or PAPERS.</p>
