All details & measurements are in photos unless otherwise noted.Â

Lot#0114

2 - 1920's GILBERT AND BARKER T-65 GAS PUMPS made in Springfield Mass. G&B model T-65 "curb" pump made between 1920 and 1924. It's a 5-gallon, hand-operated, piston-stroke pump with graduations at half a pint, a pint, a quart and a gallon and was sometimes mounted right at the curb. This was a called a "blind pump" as you could not see the fuel being pumped. Subsequent models were considered "visible models" because the attendant had to pump the gas up into a glass cylinder so the customer could see what he was purchasing. By about 1935 the T-65 models were considered obsolete, replaced and sold to the public. They were commonly used on farms between 1935 and 1955 and then retired for good. You get both pumps. 1 is mostly complete and the other is for parts, it is missing the base metal and other items. Great restoration project for your Gas & Oil collection!
All details & measurements are in photos unless otherwise noted.Â

Lot#0115

Very Early Brass Boxing Ring Bell. Works and has a loud Ring to it. Could have been used with any of the Greats like Joe Frazier or Mohamed Ali. Measures 13.5" Diameter
